wire examines how these notorious world war ii camps actually reflected a
previous use of the system a system that began almost a century earlier in truth
adolf hitler had studied the american indian reservations as he plotted his regime
s attack on european jews and other minorities remarkably in the years between
the reservations and the nazi camps the united states along with several other
western powers implemented concentration camps throughout the globe each
instance employing more and more barbaric measures with harsher and harsher
outcomes behind barbed wire explains how these nations dubiously justified camp
operations by citing military counterinsurgency tactics containment policies and
simply the ability to prosecute war more easily this brief history addresses the
subliminal reasons for relocating hundreds of thousands of civilians why the
system became so prevalent and how concentration camps existed under the
cover of armed conflict it argues that most often camps can be facilitated only
under the guise of war anyone with an interest in military history world war ii
concentration camps and the plight of the jews will discover how all these topics
converge into a compelling story of war bigotry and military might behind barbed
wire also sheds light on the concentration camp systems that have been
employed since the fall of the nazi dictatorship with current geopolitical issues
focusing on elitism xenophobia deplorables terrorism and military necessity this
book offers some understanding about the unintended consequences of policy

in march of 1933 a disused factory surrounded by barbed wire held 223 prisoners in the town of dachau by the end of 1945 the ss concentration camp system had become an overwhelming landscape of terror twenty two large camps and over one thousand satellite camps throughout germany and europe were at the heart of the nazi campaign of repression and intimidation the importance of the camps in terms of nazi history and our modern world cannot be questioned dr nikolaus wachsmann is the first historian to write a complete history of the camps combining the political and the personal wachsmann examines the organisation of such an immense genocidal machine whilst drawing a vivid picture of life inside the camps for the individual prisoner the book gives voice to those typically forgotten in nazi history the social deviants criminals and unwanted ethnicities that all faced the terror of the camps wachsmann explores the practice of institutionalised murder and inmate collaboration with the ss selectively ignored by many historians pulling together a wealth of in depth research official documents contemporary studies and the evidence of survivors themselves kl is a complete but accessible narrative

terror was central to the nazi regime and the nazi concentration camps were places of horror where prisoners were dehumanized and robbed of their dignity and where millions were murdered how did prisoners cope with the brutal and degrading conditions of life within the camps in this highly original book maja suderland takes the reader inside the concentration camps and examines the everyday social life of prisoners their daily activities and routines the social relationships and networks they created and the strategies they developed to cope with the harsh conditions and the brutality of the guards without overlooking the violence of the camps the contradictions of camp life or the elusive

complexity of the multicultural prisoner society suderland explores the hidden social practices that enabled prisoners to preserve their human dignity and create a sense of individuality and community despite the appalling circumstances this remarkable account of social life in extreme conditions will be of great interest to students and scholars in history sociology and the social sciences generally as well as to a wider readership interested in the holocaust and the concentration camps

a shaef report which asks a number of questions about the conduct of the war on the allied side this report describes the concentration camps that existed inside german controlled europe from the beginning of the nazi regime right to the end it contains details of the camps themselves and discusses the various types of camp the camp guards and the totenkopf regiments the main body gives exact details of what was known about the multitude of camps and detention centres towards the end of the war in europe and begs the question if this was known why was no one made aware of these camps other than the politicians and intelligence agencies auschwitz dachau belsen treblinka are with the other camps all described there were thirty camps in holland twenty nine in norway and the list for poland is extremely long and very chilling this book has information which gives the lie to the reconstructionist historian and points to the clear fact that holocaust denial is a non starter although not a comforting read the information is so vital to any study of the third reich that it must be on the bookshelf for reference

this learned volume is about as chilling as historiography gets walter laqueur the new republic a one volume study of auschwitz without peer in holocaust literature kirkus reviews a comprehensive portrait of the largest and most lethal of the nazi death camps serves as a vital contribution to holocaust studies and a bulwark against forgetting publishers weekly more than a million people were murdered at auschwitz of whom 90 percent were jews here leading scholars from around the world provide the first comprehensive account of what took place at auschwitz

during the twelve years from 1933 until 1945 the concentration camp operated as a terror society in this pioneering book the renowned german sociologist wolfgang sofsky looks at the concentration camp from the inside as a laboratory of cruelty and a system of absolute power built on extreme violence starvation terror labor and the business like extermination of human beings based on historical documents and the reports of survivors the book details how the resistance of prisoners was broken down arbitrary terror and routine violence destroyed

personal identity and social solidarity disrupted the very ideas of time and space perverted human work into torture and unleashed innumerable atrocities as a result daily life was reduced to a permanent struggle for survival even as the meaning of self preservation was extinguished sofsky takes us from the searing unforgettable image of the muselmann auschwitz jargon for the walking dead to chronicles of epidemics terror punishments selections and torture the society of the camp was dominated by the s s and a system of graduated and forced collaboration which turned selected victims into accomplices of terror sofsky shows that the s s was not a rigid bureaucracy but a system with ample room for autonomy the s s demanded individual initiative of its members consequently although they were not required to torment or murder prisoners officers and guards often exploited their freedom to do so in passing or on a whim with cause or without the order of terror described by sofsky culminated in the organized murder of millions of european jews and gypsies in the death factories of auschwitz and treblinka by the end of this book sofsky shows that the german concentration camp system cannot be seen as a temporary lapse into barbarism instead it must be conceived as a product of modern civilization where institutionalized state run human cruelty became possible with or without the mobilizing feelings of hatred
